

Omar Adel

Front-End Web Developer

Cairo, Egypt | omaradelawad@gmail.com | +201026986380 | in/omaradelawad | <https://omar-adel.netlify.app>

SUMMARY

Front-End Web Developer specializing in React.js recognized for crafting pixel-perfect UI/UX in a collaborative team environment, ensuring coding best practices, efficient testing, and debugging. Known for delivering reusable code and components within tight deadlines.

PROJECTS

Dream Restaurant (December 2023 - January 2024)

<https://dream-restaurant.netlify.app>

- Collaborated in a front-end team to develop a customer-centric web application using the MERN Stack for online food ordering and reservation management.
- Led the implementation of a seamless online ordering system with intuitive menu navigation, user-friendly order placement.
- Contributed to the creation of the reservation systems, ensuring users can easily create reservations efficiently.

Movie Maze (October 2023)

<https://movie-maze-app.netlify.app>

- Developed a dynamic React.js web application, with Tailwind CSS and TypeScript.
- Integrated TMDB API to fetch and display details of movies and TV series.
- Enhanced user experience with features like a slider showcasing popular movies, detailed information pages, and search options for efficient content discovery.

Socio App (September 2023 - October 2023)

<https://socioapp.netlify.app>

- Led the front-end of a collaborative React.js TypeScript social media app.
- Addressed backend bugs and primarily focused on front-end development.
- Implemented performance optimization strategies, including reducing data fetching requests, resulting in a noticeable improvement in web app performance.

Shop Nest (July 2023 - August 2023)

<https://shop-nest-app.netlify.app>

- Developed a React.js e-commerce platform with Redux Toolkit, and Tailwind CSS.
- Leveraged Firebase Firestore across the entire application.
- Implemented category browsing, dynamic home page displays, and efficient cart, checkout, and secure user authentication systems.

EDUCATION

Bachelor's Degree in Computer Science & Statistics.

September 2019 - June 2023

Faculty of Science Ain Shams University - Cairo, Egypt
